Migrations Cluster & The National University of Singapore, Singapore
& Green College, St. John's College & the Faculty of Graduate Studies,
The University of British Columbia, Vancouver, Canada presents:

Pacific Worlds In Motion II: An Interdisciplinary Conference on Asian Migrations

March 12-13, 2009

The National University of Singapore, Singapore

This graduate conference aims to better understand Asian migrations within the Asia Pacific region and globally.

Asian mobilities within Asia

To provide an avenue to engage with and develop understandings of material/intellectual cultures, and constructs of national belonging/exclusion experienced by various Asian communities within Asia and its borders.

Asian mobilities around the world

To situate Asian migrations within a larger global context by comparing parallel migration histories and processes occurring from Asia to the major regions of the world, especially Canada, the United States, Latin America, Middle East, Africa, Europe and Australia.

Both themes aim to reveal how a sense of Asian transnational or migrant identity has emerged in the past century through gendered, economic, racialized and classed power relations.

Plenary Speakers:

Prof. Cindy Fan Department of Geography, University of California Los Angeles,
Prof. David Ley Department of Geography, University of British Columbia
Prof. Geraldine Pratt Department of Geography, University of British Columbia
Prof. Henry Yu Department of History, University of British Columbia.

What to Submit: A one page abstract of your paper (*upto 500 words*)
A brief Academic CV (maximum 1 page)

When to Submit: December 1st, 2008

Where to Submit: **Monica Smith and Kamal Ramdas**
